Ras
WITH MEDITECH

SUPERCHARGE
YOUR MEDITECH ENVIRONMENT

You strive to give your patients the highest level of care. That is why you trust their information to MEDITECH. But, patient forms, photos, paper and financial information still need a central home – a home that is accessible throughout your organization from within MEDITECH.

MEET THE EASIEST WAY TO DO MORE WITH MEDITECH

- Back-Office Solutions (HR, AP and more)
- Electronic Forms Management
- Barcode Recognition
- OCR Recognition
- Easy Batch Scanning
- Workflow Automation

Dbtech Ras is an easy-to-use document management system, which seamlessly integrates with external systems to improve departmental workflows & reduce A/R days.

Report retrieval is fast and secure with the Ras web-enabled viewer. It is the only solution you need for all your document management, document imaging, workflow and electronic forms needs.

Go live with Ras in under 30 days: Call dbtech at (800) 760.4096

Ras integrates seamlessly with all versions of MEDITECH	**Magic Client/Server 6.0**

OUR PROMISE TO YOU:

EASY x THREE

Dbtech is committed to helping you create an easy workflow that actually drives your revenue.

1. Easy to use.
2. Easy to install.
3. Easy to do business with.

dbtech

A leading provider of solutions to manage, share and protect mission-critical content since 1983, dbtech Ras is currently installed in over 150 community hospitals.

Our Ras document management platform provides a central repository for a wide range of essential data – from legal documents and billing paperwork to clinical records. Driving administrative costs out of the hospital through seamless EMR integration, Ras also helps optimize your revenue cycle.

Our clients save time, paper and money through automated workflow in a variety of document intensive departments including patient accounting, medical records and accounts payable.
