

Simplify Charity Care Documentation with eForms

When it comes to complex charity care audits, streamlining the data collection process is critical. Protect your patients' privacy while improving state audit outcomes and compliance with our Charity Care solution. Easily provide free or discounted healthcare services to patients who are unable to pay for their medical care.

Our Charity Care solution utilizes secure technology to ensure that all private health information (PHI) remains safe and is unexposed to any unauthorized parties. By allowing supporting documents to be printed or emailed, this innovative solution greatly reduces the manual labor that is often necessary for collecting PHI.

BENEFITS OF CHARITY CARE

- Ability to control and support multiple audits
- Reduce risk associated with paperbound processes
- Provides insight into document collection while improving the process
- Significantly reduces labor associated with collecting PHI
- Elimination of paper-based processes increases the quality of data
- Facilitates adherence to state requirements resulting in greater compliance

HOW DBTECH'S CHARITY CARE WORKS

Our Ras system provides a centralized repository of all patient information. Organizations and patients that qualify for Charity Care are flagged in our system to make reviewing easy.

By storing patient data and forms electronically, nothing needs to be pulled from paper charts and photocopied or printed. Instead auditors use our viewer to see the necessary records.
