

# 4 Ways to Present Budget for Downtime Solution

Having downtime at your healthcare facility poses a threat to the safety and care of the patients, so implementing an EHR downtime solution will ensure physicians and nurses have access to critical patient information and operations. Downtime solutions can be challenging to add into your budget, but having a significant downtime can be costly. Here are 4 ways to present budget allocation for a downtime solution.

Downtime events are inevitable in healthcare, so allocating a budget for an EHR downtime solution and electronic forms solution is essential. At dbtech, our comprehensive EHR downtime and electronic forms solutions are designed to do just that while working within your budget constraints.
